SUMMARY

- Frontend-Focused Full Stack Engineer with **4+ years of experience** building scalable web applications using React.js, Next.js, TypeScript, Node.js, Express.js, GraphQL, and MongoDB.
- Expertise in frontend architecture, SSR/SSG, state management, API integration, performance optimization, and testing across e-commerce and healthcare domains.
- Experienced in Agile/Scrum environments, delivering responsive and high-performance applications using modern JavaScript technologies.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, MongoDB, REST APIs, JWT Authentication

API & Data: GraphQL, Apollo Client, Axios, Fetch API

Performance: SSR, SSG, ISR, Code Splitting, Lazy Loading, Memoization

Testing: Jest, React Testing Library (RTL), Cypress, Mocha, Chai

Tools: Git, GitHub, Webpack, Vite, VS Code, GitHub Copilot, Cursor AI

PROFESSIONAL EXPERIENCE

Xine Technologies Solutions | Senior Software Engineer | Jan 2025 – June 2026

Mphasis | Software Engineer | Sep 2024 – Dec 2024

Mphasis (Payroll: Ants IT Solutions) | Software Associate | Jan 2022 – Sep 2024

PROJECT EXPERIENCE

COSTCO

Costco.com is a large-scale e-commerce platform supporting online shopping, product discovery, cart management, order processing, and member-focused digital experiences. Contributed to the development of customer-facing web applications with a focus on performance, scalability, and user experience.

Environment:

React.js | Next.js | TypeScript | JavaScript (ES6+) | Redux Toolkit | GraphQL | Apollo Client
| Node.js | Express.js | MongoDB | Tailwind CSS | Jest | Mocha | Chai | Git

Key Contributions:

- Developed responsive web applications using React.js, Next.js, TypeScript, and Redux Toolkit for e-commerce workflows.

- Built reusable UI components and integrated GraphQL and REST APIs using Apollo Client.
- Implemented SSR and frontend optimization strategies using Next.js to improve SEO and application performance.
- Applied performance optimization techniques including code splitting, lazy loading, and memoization.
- Developed backend APIs and services using Node.js, Express.js, and MongoDB to support business functionality.
- Implemented JWT-based authentication and authorization for secure user access and session management.
- Developed unit and integration test cases using Jest, Mocha, and Chai to improve application reliability and code quality.

HEALTHGRADES

Healthgrades is a leading healthcare platform that helps users discover doctors, hospitals, healthcare providers, and treatment information through data-driven digital experiences. Contributed to frontend and full-stack development of healthcare search, provider discovery, and patient-focused web applications.

Environment:

React.js | Next.js | TypeScript | JavaScript (ES6+) | Redux Toolkit | GraphQL | Apollo Client
| Node.js | Express.js | MongoDB | REST APIs | Tailwind CSS | Jest | Mocha | Chai | Git

Key Contributions:

- Developed responsive healthcare web applications using React.js, Next.js, TypeScript, and Redux Toolkit.
- Built reusable frontend components and integrated GraphQL and REST APIs for provider discovery and patient-facing workflows.
- Implemented SSR and SSG strategies using Next.js to improve SEO and user experience.
- Developed backend APIs and services using Node.js, Express.js, and MongoDB for healthcare data workflows.
- Implemented JWT authentication, request validation, and centralized error handling.
- Applied performance optimization techniques and implemented testing practices using Jest, Mocha, and Chai within Agile/Scrum teams.

Education

B.Tech (ECE) | KITS College | JNTU Kakinada | 2018 – 2022
